

Dear Premier

'A climate resilient, greener, connected, regenerated New South Wales'

The New South Wales Chapter of The Australian Institute of Landscape Architects has prepared the AILA NSW Election Manifesto, and we are seeking your support in the upcoming State Election. We believe that all candidates for the NSW Parliament should commit to the development of '*A climate resilient, greener, connected, regenerated New South Wales Address*' by supporting the four following state building priorities:

- Climate & Biodiversity Positive Design
- Implementation of NSW Climate Adaptation Strategy for communities
- Recognise Green Infrastructure as an asset class
- Prioritise a Green Infrastructure Fund as part of a State climate resilience and recovery plan

The priorities are elaborated in more detail on the attached manifesto.

About AILA

The Australian Institute of Landscape Architects (AILA) leads a dynamic and respected profession: creating great places to support healthy communities and a sustainable planet. We work together to create healthy communities, connected urban green infrastructure, and liveable, sustainable cities and regions. Our 3,000+ members are driven by AILA's values and our advocacy, driven by our Strategic Plan. The work of NSW landscape architects is recognised for creating more liveable cities, healthy active spaces, and sustainable design outcomes for everyone. We are active on housing, open space and infrastructure development teams of all types, often leading, connecting, facilitating, and navigating to help achieve shared outcomes.

Is this something you could support the development of if elected?

Sincerely yours,
