Announcement
(FORMAT TBC)

Profiling Opportunities

Each year the SA Chapter aims to profile the profession through the annual Awards Program.

Sharing project entries through Presentation to Jury events and Exhibitions are both valuable ways to showcase and profile your practice and the profession to the public and industry.

Given the ongoing COVID-19 situation AILA will be developing, along with our members and partners, creative ways to host events for our Awards program again in 2022, to celebrate and acknowledge the very best in Australian Landscape Architecture.

We aim to deliver a program that is flexible and

adaptable so we can navigate any situation that eventuates during the year. We thank you for your understanding as we continue to navigate changing rules that may affect the format for events.

AILA SA Awards Entry Reveal Part of Jury Judging Process + open to all members

Wednesday 4 May | 5:30PM- 8PM ACST

In 2022 we are giving entrants the opportunity to present their projects to the Jury and to showcase project inspiration and highlights in an online format.

This event also gives our members and the public a chance to hear about the amazing work of landscape architects in South Australia.

This will be an online format and will include short 3-minute presentations by each entrant (**Note: Maximum of 8 slides**).

The Jury will be in attendance, and it will contribute to the Judging process that will occur the following Saturday. The Jury will not be able to ask questions on this occasion.

***NOTE:** This event will also open to members, industry, and friends of AILA, so there will be an audience as well as the Jury Members in attendance. Entrants are strongly encouraged to participate, but we understand certain circumstance may make this difficult. If you are unable to attend, please get in touch and you can send a video through for the Jury to watch separately. Please note that the video must also be exactly or under 3 minutes.*

Tips for preparing your presentation:

We ask that presentations are kept to a maximum of **3 minutes**. A timer will give you a warning when you have 1-minute remaining and

presentations will be stopped at the 3-minute mark, further time will not be granted.

- **Maximum of 8 slides**
- Presentations should highlight the **core vision for your project** and how the project relates to the Core Criteria: Thinking, Leadership, Results.
- Presentations **should supplement the Statement of Achievement**.
- Remember, this is an opportunity for you to talk about your project with the Jury face-to-face and to **highlight the standout qualities of your project** that make it worthy of an Award.
- Slideshows should be **highly visual** to support your verbal presentation and avoid text-based presentations. Consider using one or two hero images covering the entire slide, complemented by your verbal presentation.
- Please consider images and drawings that **contextualise the site** for the Jury and the audience (for example aerial photographs or similar, broader street view, or site plans).
- Given the time restraints, consider scripting your presentation in a **clear and concise** manner so the Jury and audience can easily follow your narrative.
- Generally, videos are not encouraged; however, any videos will need to be **embedded in the PDF presentation** and are not to be uploaded as separate files or as links from video hosting websites to avoid technical issues on the day. Note that the length of the video will be taken as part of your presentation, including the time it takes for the video to load. Please check the video quality, ensuring that it is legible at full screen. Consider 720p or higher quality.

During the event, members will be responsible for sharing their presentations from their own device as part of the zoom online format. This will give each presenter control of their screens and ability to move through their own slides. If there are technical issues on the night, we will move onto the next presenter and come back to your presentation later.

There is no need to submit your slides prior to the session, however we ask that you test the format and slides and how to operate the presentation prior to the event.

A1 Exhibition Project Board

Wednesday 20 April | 5PM ACST

Note: We will aim to host an exhibition at ODASA in August 2022.

 [Download: SA Exhibition Board template](#)

- Size: A1
- Quantity: 1 for each entry
- Orientation: Portrait
- Mounting: 5mm Foam Core (NOTE: no thin card as fixings cannot be attached)
We encourage our members to explore sustainable printing options available through your preferred printer.

Preparing your Awards Board:

- All Awards Boards must use the template provided through link above.
- The purpose of this Project Board is to be displayed at an exhibition prior to the awards night/or after the awards for other members,

- or members of the public to view as a representation of your award submission.
- Any number of images and supporting content can be included to best portray your submission.
- Your Project Board should strongly represent your project and will form part of any Chapter exhibition for public viewing.
- It is recommended that A1 Boards showcase your project through images and graphics with minimal text, to appeal to both the professional and public audience.
 - Remember, the main purpose of the display board is to **explain your project**. Make it simple and understandable for non-landscape architects.
 - No perspex or glass should be used. **Poster is not to be framed** in any way. Do not use any raised photographs or 3-dimensional effects on the board, it must be flat.

***Note:** Display of boards is at the discretion of AILA SA. AILA SA is not responsible for any damage that may be caused to your display board whilst it is on display or during dismantling and transport.*

Failure to comply with these conditions may result in your display board not being exhibited.

Boards to be packaged and wrapped for storage and safe transportation and clearly labelled with practice, project, and category on the outside of the wrapping.
